EXPERIENCE

2025 - Present
Pune, India

● Software Developer
Capternal Systems Pvt. Ltd.

ABOUT

I am a passionate software developer with experience in both backend and frontend technologies. My journey started with Core Java and Advanced Java, where I built a strong foundation in object-oriented programming and backend development. Alongside Java, I gained expertise in HTML, CSS, and SQL, allowing me to work on full-stack applications.
As my interest in mobile development grew, I transitioned into React Native to build scalable and efficient mobile applications. Currently, I am working at Capternal Software Pvt Ltd, where I develop and optimize cross-platform mobile apps using React Native
